

Steps to Convert Gmail to PST

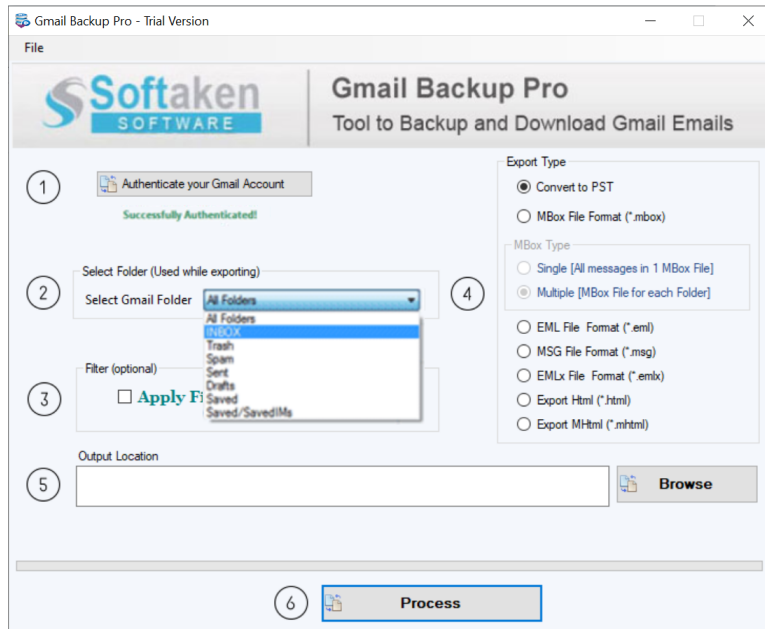

Step 1. Launch the SysCurve Gmail Backup tool.

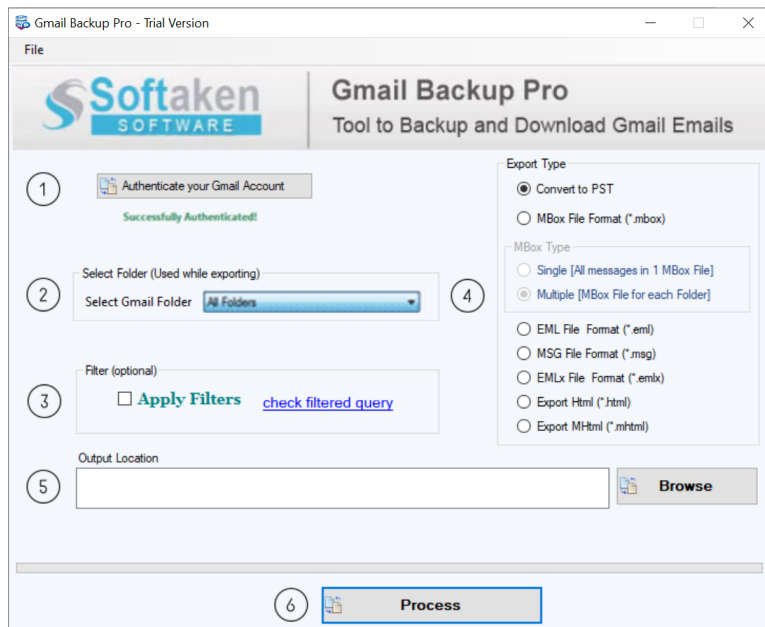

Step 2. Click on the Authenticate your Gmail Account button. Enter your Email ID and Gmail App Password. Click on the Connect to my Gmail account button.

Step 3: Select Gmail Folders that you want to export. After that, select PST as an Export Type.

Step 4. Click on the Browse button and provide a path to save the PST file format

Step 5: Click on the Process button to start the backup process.
