

WORKING GUIDE

SysCurve ICS Duplicate Remover Tool

A practical guide to install the software and complete the core workflow on Windows.

Product page: <https://www.syscurve.com/ics-duplicate-remover-tool.html>

01. Introduction

SysCurve ICS Duplicate Remover Tool helps reduce repeated calendar entries from local ICS files using selected duplicate matching rules.

Use this guide to choose duplicate scope, select match criteria, review calendar entries, and create cleaned ICS output with reports.

02. Key Features

- Removes duplicates within each ICS file or across the selected file set.
- Provides match criteria such as UID, summary, start time, and location.
- Includes normalization options for case handling and date/time values where needed.
- Lets you preview calendar entries before the cleanup process starts.
- Creates cleaned ICS output files and can generate CSV and HTML duplicate-removal reports.
- Keeps original ICS files unchanged by writing cleaned copies to the selected output folder.

03. System Requirements

Requirement	Recommended
Operating System	Windows 7, 8, 10, 11
Processor	Intel or compatible processor
RAM	4 GB minimum; 8 GB recommended for large calendar files
Hard Disk Space	500 MB for installation, plus space for generated output files
.NET Framework	Version 4.7.2 or higher

04. Installation Steps

1. Download SysCurve ICS Duplicate Remover Tool from the official SysCurve website.
2. Run the installer and follow the on-screen instructions.
3. Launch the program from the desktop icon or Start menu after installation.

05. How to Use

1. Open SysCurve ICS Duplicate Remover Tool.
2. Add the ICS files or folder that contains calendar entries to check.
3. Choose whether to remove duplicates within each file or across selected files.
4. Select the duplicate match fields, such as UID, summary, start time, or location.

5. Choose normalization options if minor case or date/time differences should be handled.
6. Select the output folder, start duplicate removal, and review the cleaned files and reports.
