

## WORKING GUIDE

# SysCurve MBOX to PDF Converter

A practical guide to install the software and complete the core workflow on Windows.

Product page: <https://www.syscurve.com/mbox-to-pdf-converter.html>

---

## 01. Introduction

---

SysCurve MBOX to PDF Converter exports emails from MBOX files into PDF documents for archive, review, printing, and sharing.

This guide explains how to load MBOX data, preview emails, apply date range filtering, and save selected messages as PDF files without depending on Thunderbird.

## 02. Key Features

---

- Converts MBOX email data to PDF documents in batch.
- Supports MBOX files from sources such as Thunderbird, Apple Mail, and Google Takeout exports.
- Includes date range filtering to export messages from a selected time period.
- Allows message preview before exporting.
- Preserves useful message details such as sender, recipients, subject, and date in the output.
- Runs as a local Windows tool so mailbox data does not need to be uploaded.

---

## 03. System Requirements

---

Requirement	Recommended
Operating System	Windows 7, 8, 10, 11
Processor	Intel or compatible processor
RAM	4 GB minimum; 8 GB recommended for large files
Hard Disk Space	500 MB for installation, plus space for output files
.NET Framework	Version 4.7.2 or higher

---

## 04. Installation Steps

---

1. Download SysCurve MBOX to PDF Converter from the official SysCurve website.
2. Run the installer and follow the on-screen instructions.
3. Launch the program from the desktop icon or Start menu after installation.

---

## 05. How to Use

---

1. Launch SysCurve MBOX to PDF Converter.
2. Add an MBOX file or a folder that contains MBOX files.
3. Preview loaded folders and messages to confirm the source data.
4. Select PDF as the output format and choose the destination folder.
5. Apply date range filters if you want to export only selected emails.

6. Start the conversion and review the generated PDF files.

## 06. Support

---
