

Steps to Convert Yahoo Mail to PST

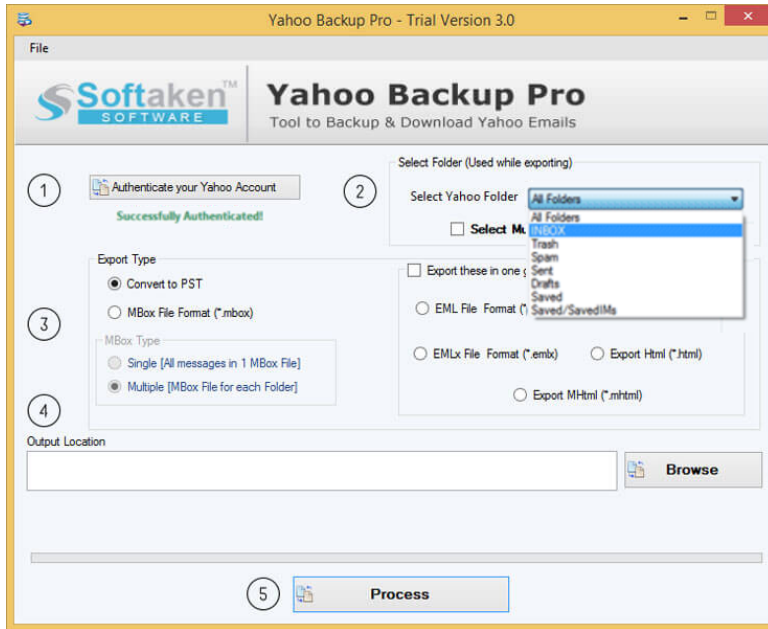

Step 1. Launch the SysCurve Yahoo Backup tool.

Step 2. Click on the Authenticate your Yahoo Account button. Enter your Email ID and App Password. Click on the Connect to my Yahoo account button.

Step 3: Select Yahoo Folders that you want to export. After that, select PST as an Export Type.

Step 4. Click on the Browse button and provide a path to save the PST file format

Step 5: Click on the Process button to start the backup process.
