

## WORKING GUIDE

# SysCurve Zimbra Attachment Extractor Tool

A practical guide to install the software and complete the core workflow on Windows.

Product page: <https://www.syscurve.com/zimbra-attachment-extractor-tool.html>

---

## 01. Introduction

---

SysCurve Zimbra Attachment Extractor Tool saves attachments from Zimbra TGZ mailbox exports into local folders.

This guide explains how to load a TGZ file, select mailbox folders, choose a save location, and extract attachments for review or backup.

## 02. Key Features

---

- Extracts email attachments from Zimbra TGZ mailbox files.
- Supports folder selection to focus extraction on required mailbox areas.
- Keeps extracted files organized in the selected output location.
- Runs locally on Windows without uploading TGZ data online.
- Useful for collecting documents, images, invoices, and other files from Zimbra exports.
- Helps separate attachments from mailbox data for archive or review tasks.

---

## 03. System Requirements

---

Requirement	Recommended
Operating System	Windows 7, 8, 10, 11
Processor	Intel or compatible processor
RAM	4 GB minimum; 8 GB recommended for large files
Hard Disk Space	500 MB for installation, plus space for output files
.NET Framework	Version 4.7.2 or higher

## 04. Installation Steps

---

1. Download SysCurve Zimbra Attachment Extractor Tool from the official SysCurve website.
2. Run the installer and follow the on-screen instructions.
3. Launch the program from the desktop icon or Start menu after installation.

## 05. How to Use

---

1. Launch SysCurve Zimbra Attachment Extractor Tool.
2. Add the Zimbra TGZ file that contains the mailbox data.
3. Select the folders or messages from which attachments should be extracted.
4. Choose a destination folder for the extracted files.

5. Configure available filter or naming options if required.
6. Start extraction and review the saved attachments after completion.

## 06. Support

---
